“We must work for the good of every single student in the school.”

This was the challenge of Mario M. Bermudez, Assistant Schools Division Superintendent during the two -day seminar on Strategic Planning at General Santos City National High School’s (GSCNHS) Cyber-Ed, October 2-3.

The purpose of the seminar was to provide strategic actions for readjustment and enhancement of the School Improvement Plan (SIP) through the OKraPISPATRes (Objectives, Key Result Areas, Performance Indicators, Program, Activities, Task and Resources) interventions.

“Through this seminar, we can derive certain strategies to address the concerns and problems of the school thru the SWOT (Strengths, Weakness, Opportunities, and Threats) Analysis,” Bermudez cited.

The speakers of the said event were Angelito C. Llanos, Principal II, Amy Sendico, Head of Planning Section and Victorino A. Fuentes Jr., Sports Program Education Supervisor (SPES).
